## How to set and supply your artwork correctly

1. Select **Layers Tool** (F7) > Select: **Artwork (place here)** layer. Create/Add your design to the **Artwork** layer.
2. Once your design is complete, please remove the **Guide** layer.  
**Failure to remove will result in the guide layer printing over your artwork design.**
3. Export to: **Adobe PDF (Print)** (PC: ctrl+E / Mac: cmd+E).

 **Finished Size** - This is the finished size of the product once trimmed.

 **Safe Area** - We recommend keeping text and important content inside white area.

 **Bleed** - Please extend your artwork into this section. This is to avoid white or unprinted edges when trimmed to finished size.
